Congratulations to Norman Legassie, whose sculpture was the winning entry for the L'Ambiance Plaza Memorial. This \$50,000 public art commission will memorialize the 46 construction workers who died or were injured in the 1987 disaster in Bridgeport. Norm's winning sculpture design was selected from submissions from across the nation, and will depict a bronze figure of a construction worker, 7 feet tall, on a 2 ft. base, on which the names of the victims will be placed. The memorial will be dedicated on April 23, 1993.

Donations have already been received to that end, and anyone interested in contributing should send donations in care of the Lyme Art Association, P.O. Box 222, Old Lyme, CT 06371.
